DATE \ TIME

Wednesday, March 18, 9:00 am - 6:00 pm
Happy Hour from 4:30 - 6:00 pm

Thursday, March 19, 9:00 am - 3:00 pm

REGISTER

Come check out the latest in gearmotors, smart automation controls, and more. Watch live demos and connect one-on-one with our technical experts for answers tailored to your needs. We'll even offer three training courses designed to get the most out of your SEW product.

**GEARMOTORS &
GEAR UNITS**

**SERVOMOTORS &
GEAR UNITS**

HIGH-EFFICIENCY MOTORS

LOW-VOLTAGE DRIVES

AC MOTORS & OPTIONS

INVERTERS & DRIVES

**DECENTRALIZED DRIVE
APPLICATIONS**

**MOVITANS CONTACTLESS
ENERGY TRANSFER**

**HEAVY INDUSTRIAL
GEAR UNITS**

STAINLESS STEEL

TRAINING SESSIONS:

High-Performance SEW Brake Operation

Learn the fundamental operation of a standard SEW brake, including how to properly set the required air gap, troubleshoot common issues, and configure wiring for both normal and rapid stopping functions.

MAR 18: 10:00 AM, 2:00 PM
MAR 19: 10:00 AM

Maximum Motor Speed Range – “Motor Supercharging”

Discover how to extend your speed range by pushing VFDs beyond 60 Hz. Gain insight into improving system stability, optimizing performance, and reducing overall costs.

MAR 18: 10:15 AM, 2:15 PM
MAR 19: 10:15 AM

Understanding Motor and System Efficiency

Learn how motor efficiency ratings impact system power savings and explore SEW-EURODRIVE solutions that support IE5 efficiency and deliver added application benefits.

MAR 18: 10:30 AM, 2:30 PM
MAR 19: 10:30 AM

Sizing and Selection for Dynamic Applications

Let SEW assist you in sizing your next application. Explore the basics of our powerful Workbench software and learn how it determines the most efficient and effective solution for your specific needs.

MAR 18: 10:45 AM, 2:45 PM
MAR 19: 10:45 AM
